Skills

Languages: C++, JavaScript, TypeScript, SQL

Technologies & Tools: HTML, CSS, React.js, Node.js, MySQL, MongoDB, Git, Docker

Core Subjects: Data Structure & Algorithms, DBMS, Operating System, Computer Networks, OOPs

Soft Skills: Communication, Leadership, Teamwork, Problem-solving

Education

G L BAJAJ INSTITUTE OF TECHNOLOGY AND MANAGEMENT 2022-2026

B.Tech in Information Technology | CGPA:7.68/10

Nilgiri Hills Public School 2021-2022

CBSE (Class XII) | Aggregate:87.6%

Sahil Public School 2019-2020

CBSE (Class X) | Aggregate:88%

Projects

LoopChat | *React.js, Express.js, Node.js, PostgreSQL, Cloudinary, Redis, Socket.io, Git*

- Built a **highly scalable chat platform** using the **PERN stack** (PostgreSQL, Express, React, Node.js).
- Implemented **real-time messaging** with **Socket.io** and **Redis pub/sub** to synchronize events across multiple servers.
- Built an **intuitive React frontend** with responsive UI, ensuring smooth user experience across devices.
- Built **robust authentication** using **JWT/OAuth** with **access and refresh tokens** for secure sign-up, login, and session management.
- Utilized Cloudinary for seamless media handling, enabling users to upload, display, and manage images and files with optimized storage and delivery.
- [Live](#) | [Github](#)

ReviewHog | *React.js, Express.js, Node.js, PostgreSQL, Git*

- Developed **ReviewHog**, an AI-powered GitHub App for automated PR reviews, streamlining review workflows and improving code quality consistency across teams.
- Designed and implemented **LangChain pipelines** to analyze PR diffs and generate structured, actionable review comments.
- Implemented **GitHub OAuth authentication** and app installation flow, enabling secure repo access and user-level configuration.
- Developed a **React dashboard** for managing connected repositories, tracking review history, and customizing AI review settings.
- [Live](#) | [Github](#)

GenMail | *Next.js, Node.js, Typescript, Gemini API, Vercel*

- A web app built using the MERN stack and Google AI Studio to generate dynamic, context-aware email templates..
- Utilized Google AI Studio to analyze user input and generate customized email drafts, improving efficiency and personalization.
- [Live](#) | [Github](#)

Achievements

- Reached **Knight title with 1857 rating** on LeetCode
- Solved 450+ questions on Leetcode.

Certifications and Internships

- GOOGLE AI-ML VIRTUAL INTERNSHIP (JULY - SEP 2024) | [Link](#)
- AWS CLOUD VIRTUAL INTERNSHIP (SEP - NOV 2023) | [Link](#)
